MISSION BRIEF

CP- Command Post

Mission:

Provide seamless C2 Operations, Develop Professionals prepared to lead Air Force Operations in Garrison and in Combat.

Vision:

Empower Team Pope with innovative Airmen propelling Global Reach from AMC's strategic platform!

Priorities:

Posture for Success, Lay Foundation for Future Inspections, Increase Technical Capabilities

Who we are: We provides seamless C2 for Team Pope, warfighting partners and transient forces through superior mission monitoring, timely emergency management and accurate operational reporting. We liaise with Ft. Liberty, DoD and civilian C2 and EM response organizations including Ft Bragg's Operations Center, DPTMS, FD, and PMO.

What we do: We ensure proper reporting of incidents and notification of personnel. Additionally, we operate as the "One Voice of the Blue" for the notification and dissemination of information to our installation personnel and ensure Air Force personnel are kept abreast of critical EM, Severe Weather and Security events.

Who we support:

We're a Group Staff Agency, and we directly support the Group Commander, Squadron Commanders, and all assigned unit personnel.

How we tie into the greater mission:

We facilitate effective, cohesive decision making combined with superior mission execution supporting Pope leadership, joint partners, and civil agencies in support of daily operations, contingencies, special missions, natural disasters, and emergency response.

Our accomplishments:

We mission managed the IRF from JB Charleston as the ops arm of TF-Gryphon, enabling the evacuation of 124,000 personnel during Operation ALLIES REFUGE; and we did again earlier this year to launch NATO support for the Ukraine crisis. We've also received funding for \$600,000 worth of new equipment. We have won several 2022 Group awards.

Our challenges:

Establishing communication and relationships to effectively function as Pope's C2 liaison with other Ft. Liberty, DoD and civilian C2 and EM response organizations.

WHERE WE ARE GOING...

We will continue to seamlessly evolve operations as the "One Voice of the Blue".

Without fail, we will provide information notification and dissemination to installation personnel and ensure Air Force personnel are kept abreast of critical Emergency Management, Severe Weather and Security events.
