## MISSION BRIEF

# CVB- Installation Resilience Office

### **Mission:**

Provide our Airmen and families with the tools and resources that enhance resilience and mitigate all instances of interpersonal and self-directed violence.

### **Vision:**

A violence free environment that values resiliency, connectedness, and respect for all.

### **Priorities:**

Build and fortify resilience, Mitigate ISDV, Foster connectedness

### **Who we are:**

We serve as the Installation Resilience Team for Pope i Army Airfield. A team of 5 professionals including the Prevention Specialist, Prevention Analyst, Prevention Coordinator and Prevention Chief.

**What we do:** We lead the development, implementation and evaluation of all prevention and resilience efforts. We serve as the key subject matter expert ensuring all installation prevention partners, leadership, and the community understands risk and protective factors associated with self-directed harm and prohibited abusive or harmful acts.

### **Who we support:**

We lead the development, implementation and evaluation of all prevention and resilience efforts. We serve as the key subject matter expert ensuring all installation prevention partners, leadership, and the community understands risk and protective factors associated with self-directed harm and prohibited abusive or harmful acts.

### **How we tie into the greater mission:**

Resilience impacts readiness. Resilient organizations are better able to accomplish their mission in the face of obstacles when they are resilient and connected to each other.

### **Our accomplishments:**

Team Pope Mobile App; We Care We Connect Resource Guide; Leaders Training Resource Catalog; Adopt A School Program; Pope World Tour Cultural Event; Annual Best Squadron Competition; Fall Festival, Provide over 500 hours of resilience training annually.

### **Our challenges:**

TCultivating a growth mindset as it pertains to resilience. For many it's "either you are resilient, or you are not". This is not true – resilience, like any other skill, can be taught and it can be learned.

## **WHERE WE ARE GOING...**

A fully manned and resourced integrated resilience and prevention program providing tools, training, resources and opportunities for enhancing resilience, preventing violence, and improving our climate and our culture at all levels.
